EXPLAINABLE

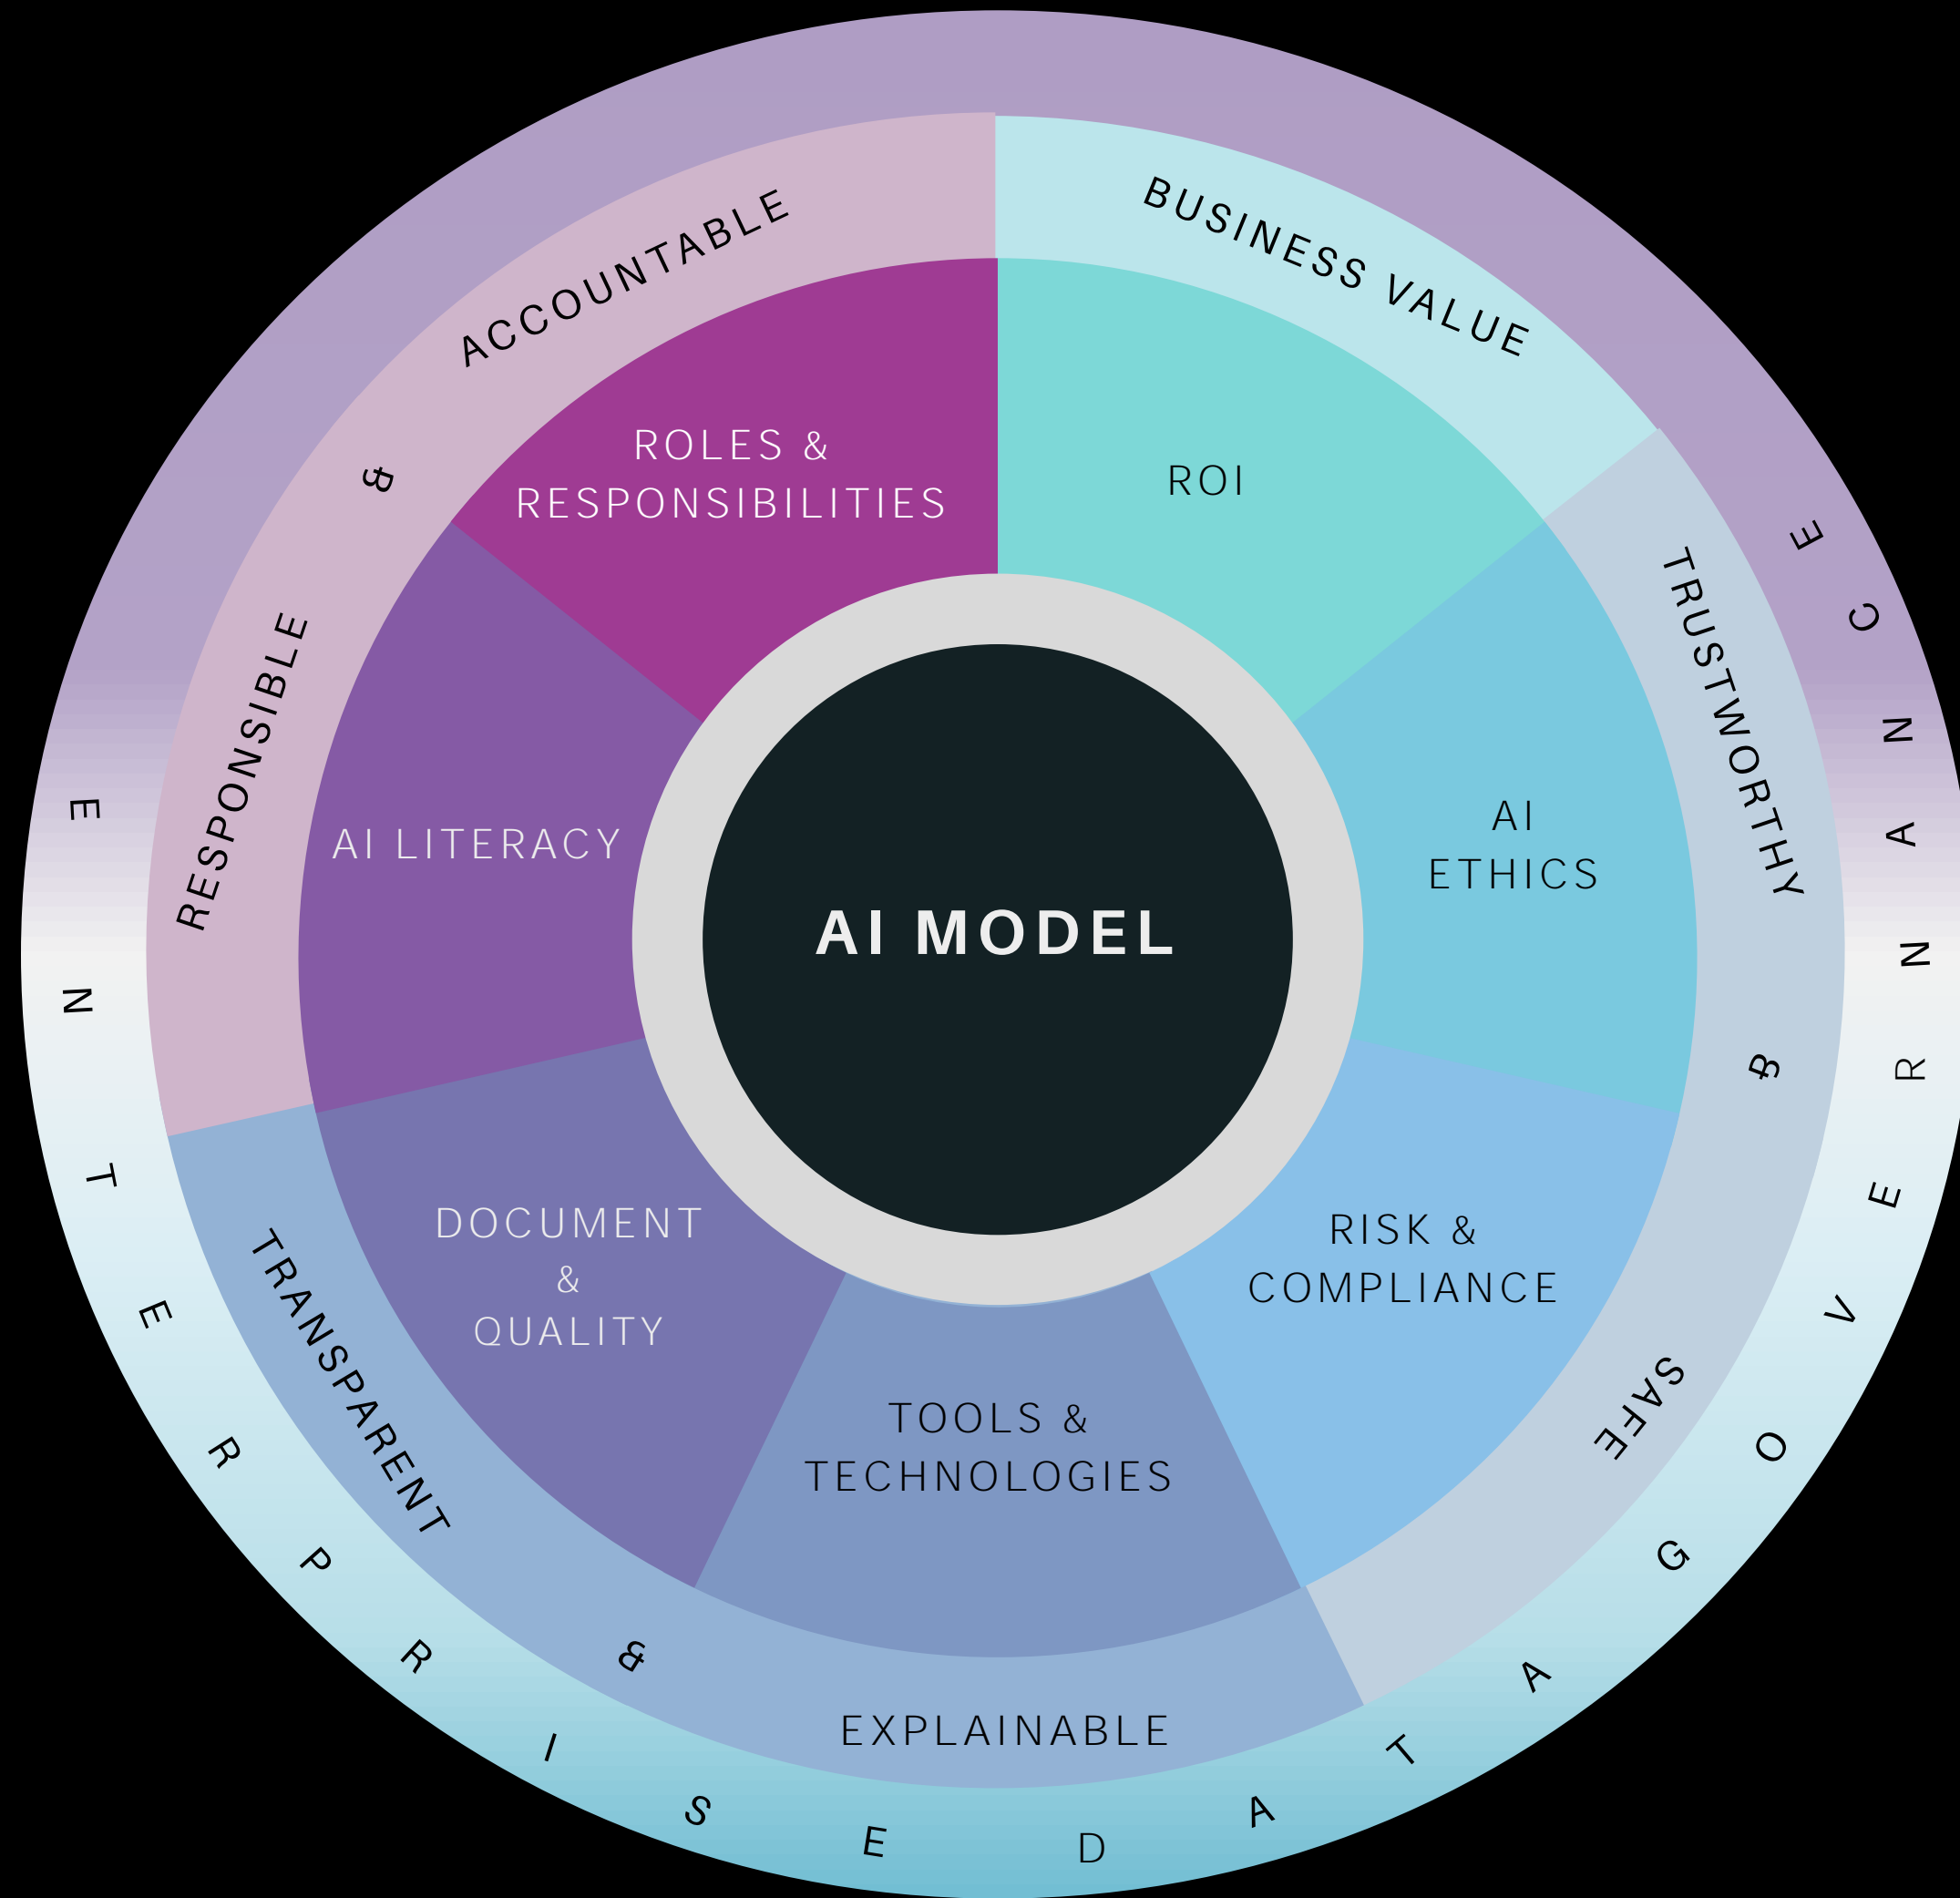

4

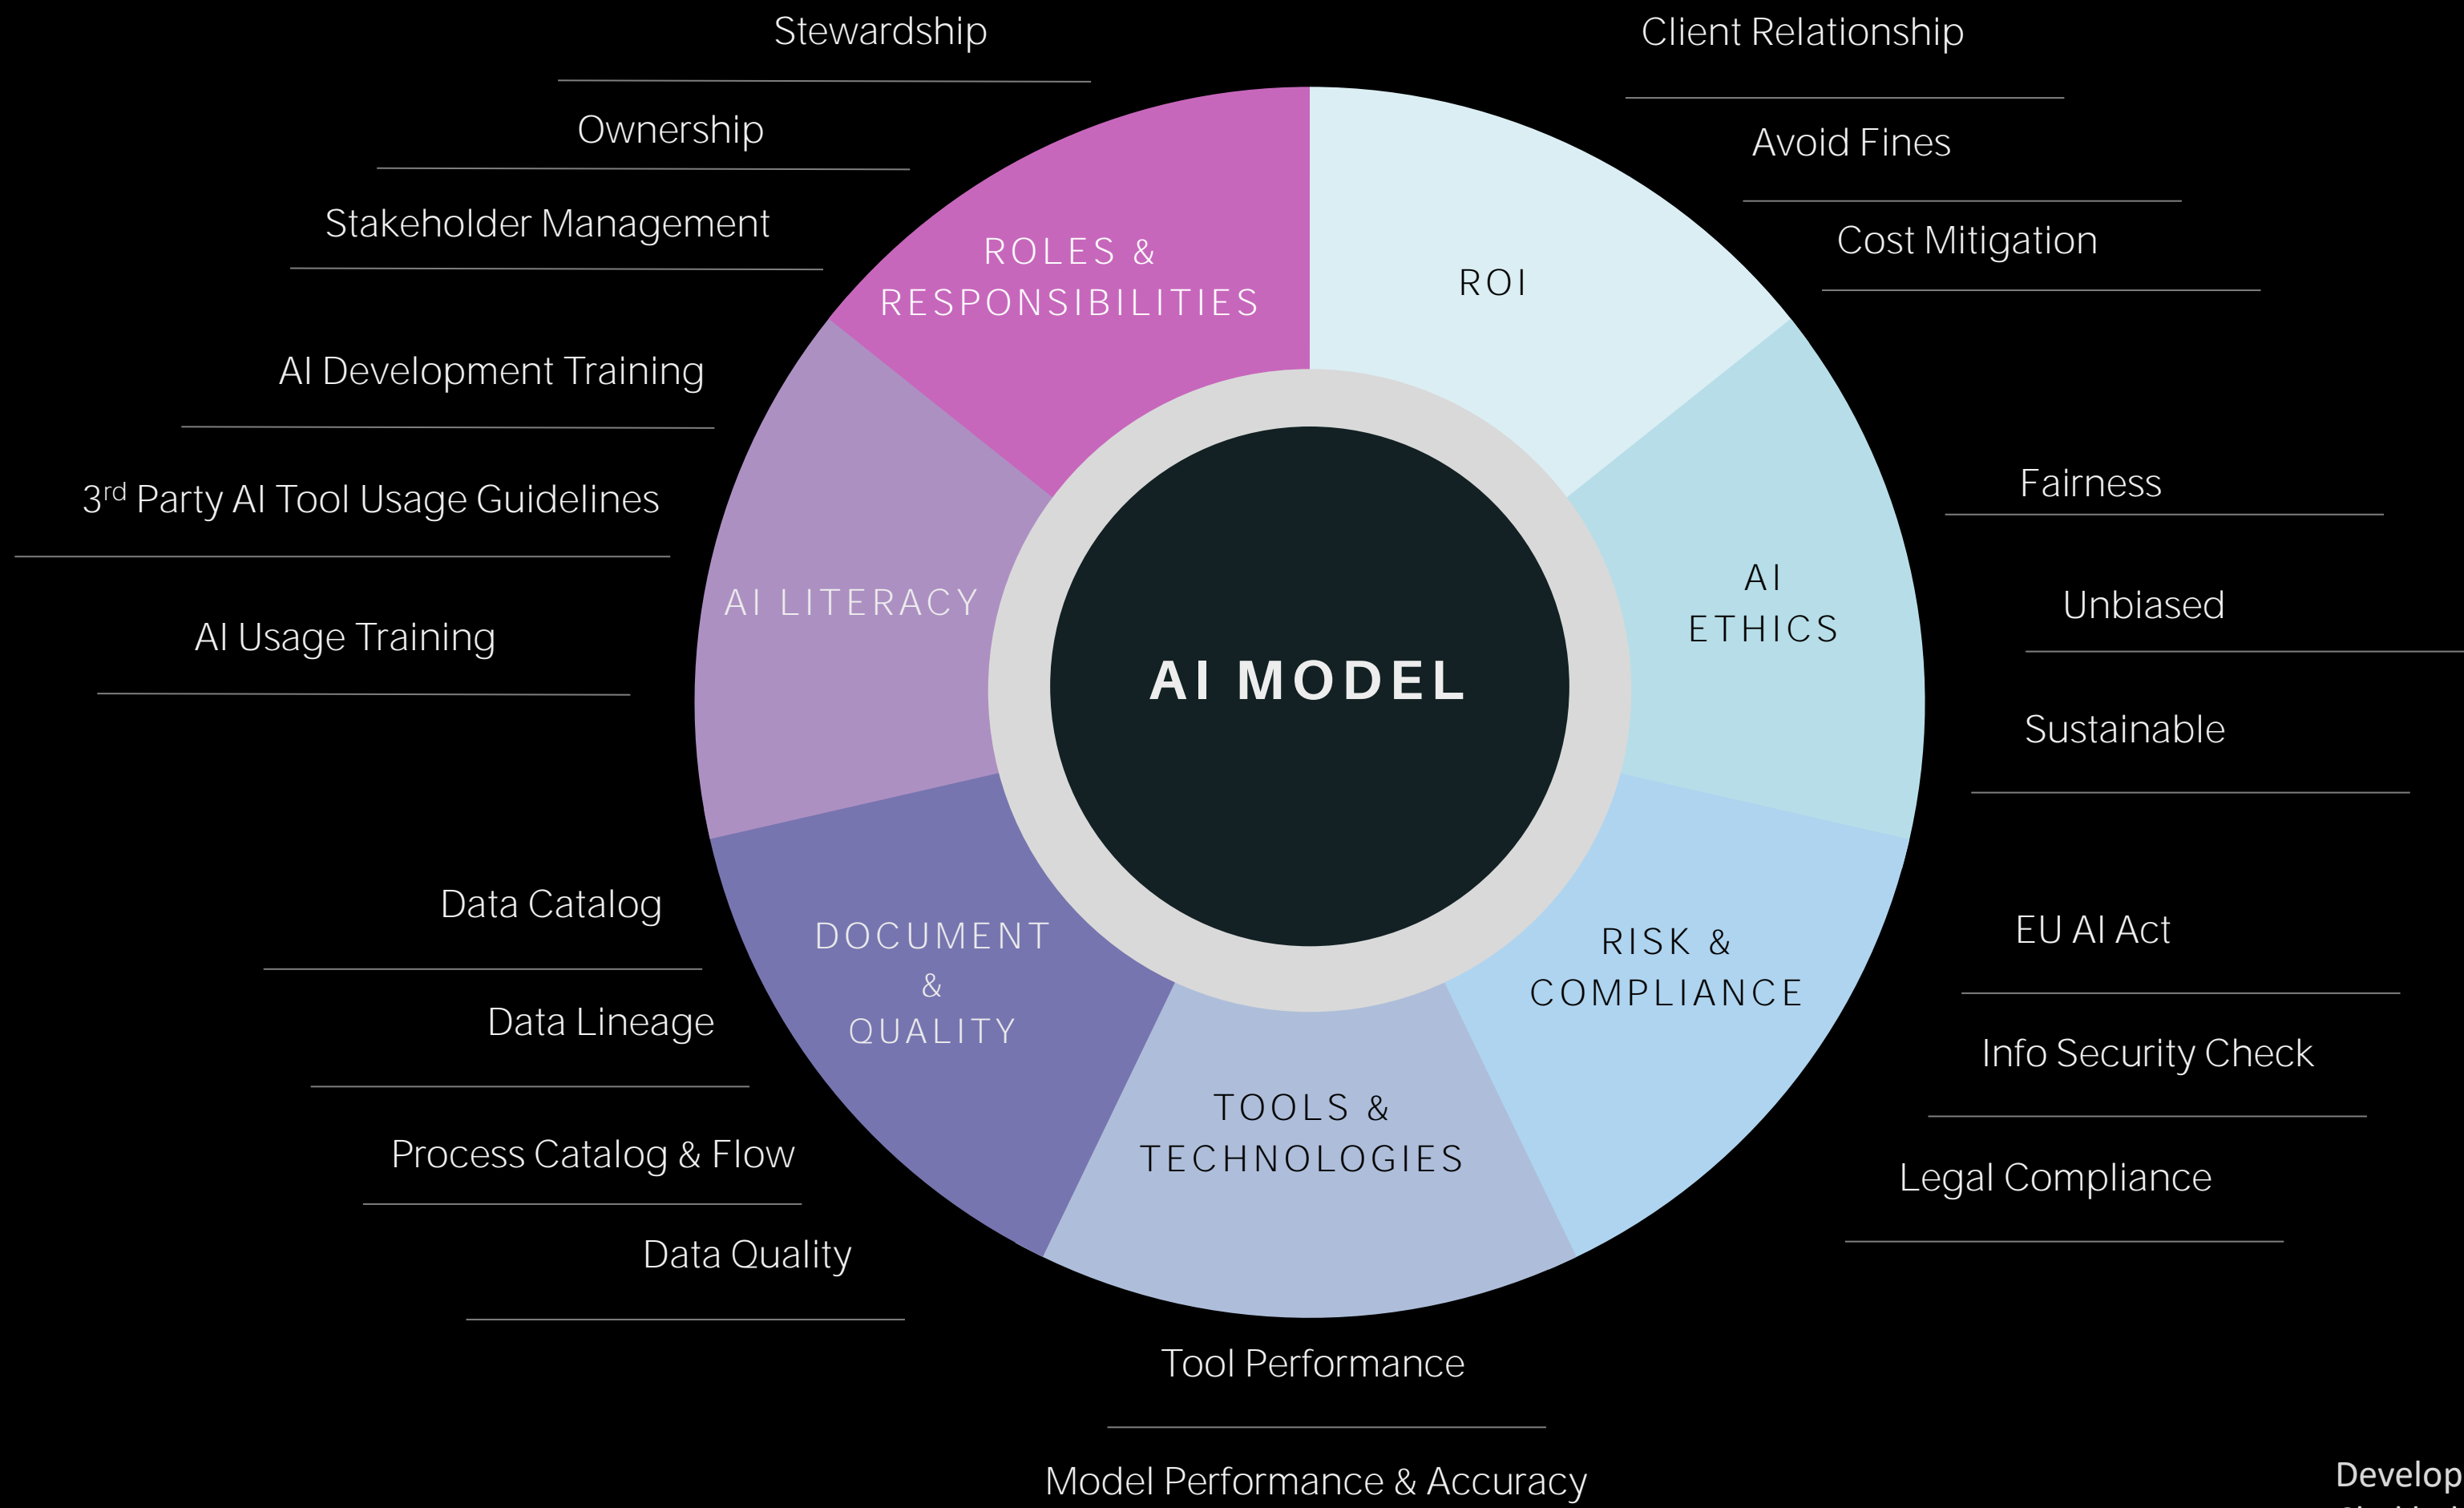

RESPONSIBLE  
&  
ACCOUNTABLE

# PILLARS OF AI GOVERNANCE

# AI GOVERNANCE FRAMEWORK

Developed by : Sayantan Chaklader

Developed by : Sayantan Chaklader

# Conclusion

- **AI Governance can be a subset of Enterprise Data Governance** - *Without a proper Data Governance function its very difficult to implement AI Governance alone*
- **Most important factor of AI Governance is 'People'**
- **Safety and Ethics has a high importance at this point for AI Governance**
- **HR department is very important for the adoption of AI Governance** – *Because of the impact of AI on human (including employees), adoption of AI tool usage guidelines, AI Ethics (Bias), AI Literacy etc.*
- **If the trend of AI remains like this or grows in future, AI Governance will evolve more in future and will become a mainstream department in most organizations like Data Governance**

**THANK YOU**
